Typical applications

- Garages
- Showrooms
- Lobbies and foyers
- Shopping centres
- Restaurants
- Workshops
- Schools
- Retail stores
- Office Buildings
- Sheds

Surface preparation

Concrete should be at least 28 days old and free of additives, curing agents, oils etc. Remove all loose and drummy areas to obtain a sound surface. Ensure that surfaces are free of dust, oil, and grease.

Prepare concrete by professional diamond grinding to exceed CSP 2 Standard.

Vacuum all dust and debris. Allow to dry if wet.

Always confirm preparation adequacy
